

To Whom It May Concern

PT. Paramita Bangun Sarana with whom our company has had a good relationship especially in Tarjun Project and Lampung Project to build:

- Refineries (1,000 Ton Per Day, 2,000 Ton Per Day and 3,000 Ton Per Day)
- Bulking Tanks (Total capacity 200,000 Ton)
- Kernel Crushing Plants (1,800 Ton Per Day)
- Jetties (Max Berthing Capacity 70,000 DWT)

We created our own relationship in an attempt to identify diverse firms that share our reputation for integrity and are committed to establishing the financial and professional controls necessary to achieve excellence.

We offer my recommendation with no reservations and we would be happy to provide more detail information if necessary.
